ACTION PLAN FOR DEVELOPMENT AND SUSTAINABILITY GOALS

AGENDA 2030 - DIRECTION TOWARDS THE UN'S GLOBAL SUSTAINABILITY GOALS

During the Paris climate conference in 2015, the member states of the UN General Assembly adopted the historic resolution **Agenda 2030** for sustainable development. The resolution contains 17 goals and 169 targets that private companies can use to frame their sustainability work in the coming years. **Bygging-Uddemann** works actively and supports the ambitions to achieve the goals in our business and in our value chain.

The resolution contains 17 goals and 169 targets that private companies can use to frame their sustainability work in the coming years. **Bygging-Uddemann** works actively and supports the ambitions to achieve the goals in our business and in our value chain.

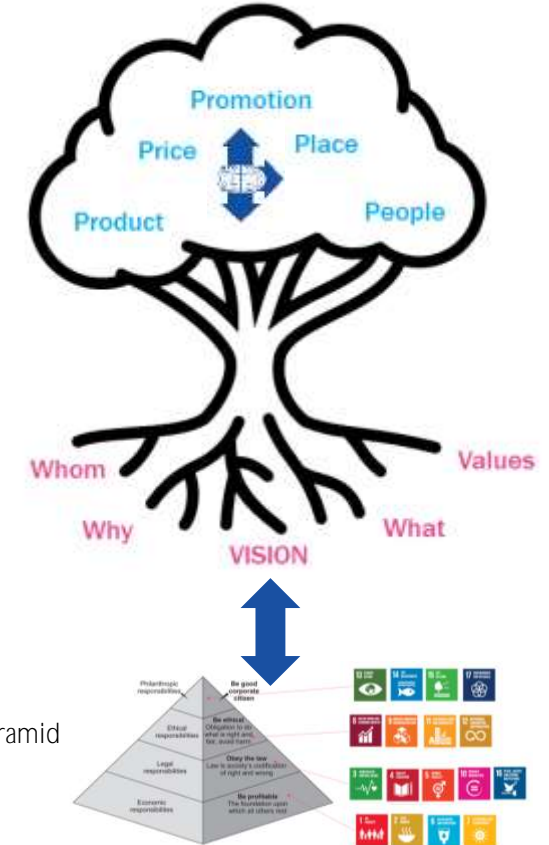

PROFILE OF BYGGING-UDDEMANN

Bygging Uddemann AB stands for efficiency and high quality. Our ambition is always to be associated with sustainable products that we meet with our customers' requirements. To achieve this, we focus on long term relationships with both suppliers and customers. Openness and honesty with customers are cornerstones in our organization – we guarantee that we keep our promises. To ensure that our products and services meet our customers' demands and requirements, we work with modern technologies and well educated and skilled personnel. We ensure that supervisors have long apprenticeship in order to become experts in their field.

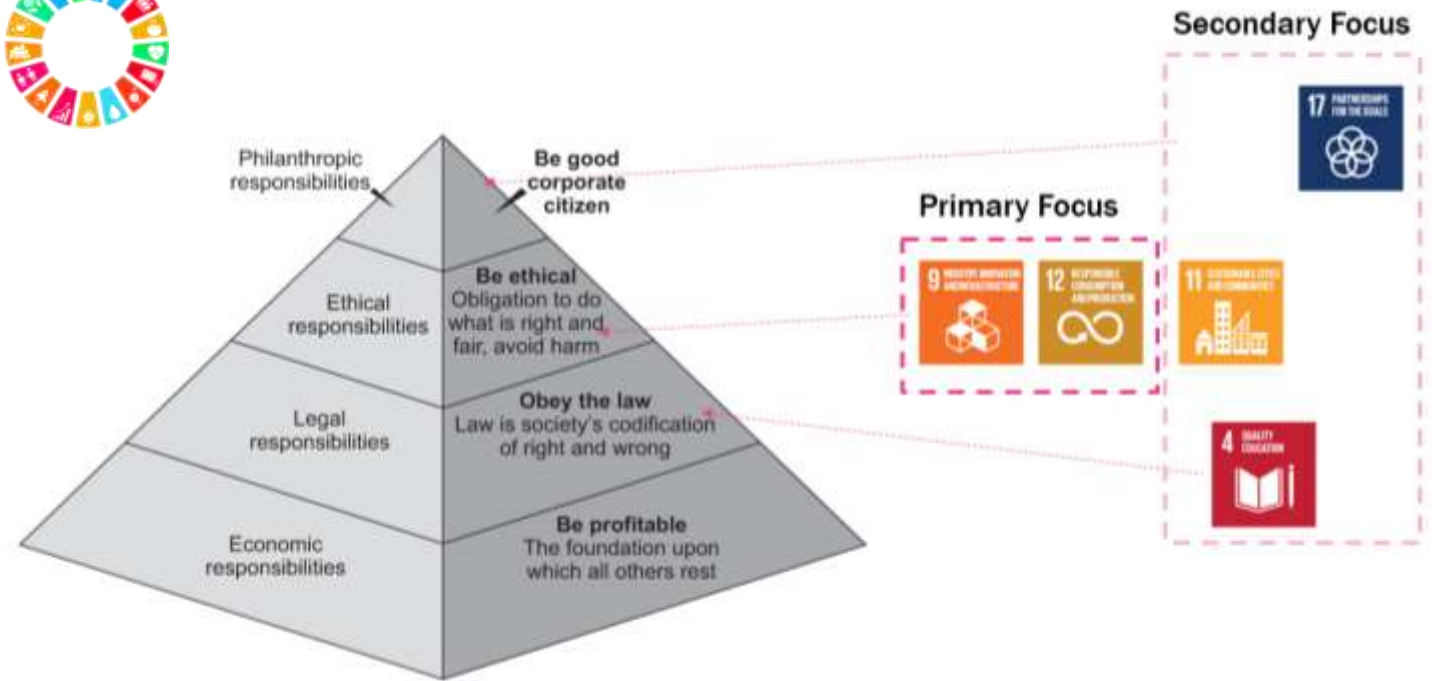

Our company shall always strive to be a sustainable business in both quality and environmental aspects, and continuously work to avoid unnecessary air transportation of materials and people. Our products will, as far as possible, be produced locally, close to the end customer. We will continuously work to influence our suppliers to also improve their environmental awareness and encourage them to improve their technology to minimize the overall environmental impact.

Bygging-Uddeman works systematically with quality and environment to continuously improve operations and learn from past experiences. Fulfilling legal requirements is for us a minimum requirement, instead we strive to exceed the demands placed on us.

HOW WE WORK WITH SDG

BYGGING-UDDEMANN SHOULD BE THE PARTNER OF CHOICE FOR DEVELOPING SUSTAINABLE INFRASTRUCTURE AND CONSTRUCTION WORLDWIDE.

Our ambition is to contribute to all strategic development goals in all our activities, but focus on the goals that are most relevant to our business and where we have the greatest possibility to make a difference. In our action plan for the next few years, we have selected five goals, two primary and three secondary, which are close to our business and where we believe we can make the greatest effort. We are constantly redefining how our different market areas can contribute to achieving the global ambitions for each of these goals in practice.

OUR AMBITION AS A COMPANY, PARTNER AND INDUSTRY PLAYER

Innovation and development are what created Bygging-Uddemann. Our ambition will continue to be to develop solutions for a reliable, sustainable and resilient infrastructure for a global market with a focus on security and a high level of local content to the right quality.

Wherever in the world we work, we want to contribute to the development of the construction industry in local markets by encouraging stakeholders to invest in local businesses and labor. Furthermore, throughout the business, we want to continue to focus on resource efficiency and environmentally friendly technology. This applies to everything from material transports to construction methodology and manufacturing of equipment.

Finally, we want to continue working to facilitate sustainable and sustainable infrastructure development by bringing its technology to developing markets.

GOAL 9 - INDUSTRY, INNOVATION AND INFRASTRUCTURE

BY 2030, BYGGING-UDDEMANN WILL:

9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all

9.2 Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries

9.4 Upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities

9.A Facilitate sustainable and resilient infrastructure development in developing countries through enhanced financial, technological and technical support to African countries, least developed countries, landlocked developing countries and small island developing States

ACTION PLAN

BYGGING-UDDEMANN WILL ACHIEVE THE GOALS BY:

- Continue to develop solutions to facilitate reliable, sustainable and resilient infrastructure for a global market with a focus on security and high levels of local content to the right quality.
- Contribute to the development of the construction industry in local markets by encouraging stakeholders to invest in local businesses and labor.
- Continue to focus on resource efficiency and environmentally friendly technology for all markets.
- Facilitate sustainable and resilient infrastructure development by bringing technology to developing markets.

OUR AMBITIONS AS A COMPANY IN RELATION TO NATURAL RESOURCES, SUSTAINABLE CONSUMPTION AND PRODUCTION

Bygging-Uddemann's overall ambition is to continue striving to integrate sustainability at all management levels and to use natural resources efficiently. As more concrete efforts, we will minimize the environmental impact of chemicals and waste used in the company's operations. This applies to everything from the manufacture of equipment to method execution in the workplace. A further effort is that we will reduce waste production through a more accurate assessment of the material needed.

GOAL 12 - RESPONSIBLE CONSUMPTION & PRODUCTION

By 2030, BYGGING-UDDEMANN WILL:

- 12.2 Achieve the sustainable management and efficient use of natural resources
- 12.4 Achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment
- 12.5 Substantially reduce waste generation through prevention, reduction, recycling and reuse

ACTION PLAN

BYGGING-UDDEMANN WILL ACHIEVE THE GOALS BY:

- Integrate sustainability at all levels of management and use natural resources efficiently.
- Minimize the environmental impact of chemicals and waste used in the company's operations.
- Reduce waste production through a more accurate assessment of material needed.

OUR AMBITIONS TO ENSURE INCLUSIVE AND EQUITABLE QUALITY EDUCATION AND PROMOTE LIFELONG LEARNING OPPORTUNITIES FOR ALL

Bygging-Uddemann's ambition is to help increase people's opportunities for financial security by offering good employment, decent work and opportunities for development.

GOAL 4 - QUALITY EDUCATION

By 2030, BYGGING-UDDEMANN WILL:

4.4 Substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship

ACTION PLAN

BYGGING-UDDEMANN WILL ACHIEVE THE GOAL BY:

- Actively contribute to increase the professional skills for employment by encouraging high level of local content.

OUR AMBITIONS AS A CONSTRUCTION COMPANY TO CONTRIBUTE TO A SAFE AND SUSTAINABLE INFRASTRUCTURE

We strive to actively support less developed countries to achieve sustainable and resilient infrastructure by using local materials as much as possible.

GOAL 11 - SUSTAINABLE CITIES

By 2030, BYGGING-UDDEMANN WILL:

11.C Support least developed countries, including through financial and technical assistance, in building sustainable and resilient buildings utilizing local materials

ACTION PLAN

BYGGING-UDDEMANN WILL ACHIEVE THE GOAL BY:

- Will support less developed countries to achieve sustainable and resilient infrastructure by utilizing local materials as much as possible.

OUR AMBITIONS AS A CONSTRUCTION COMPANY TO STRENGTHEN THE GLOBAL PARTNERSHIP FOR SUSTAINABLE DEVELOPMENT

Bygging-Uddemann has the ambition to strengthen domestic companies where we operate by using local production facilities and a high level of local content for workforce.

GOAL 17 - PARTNERSHIP FOR THE GOALS

By 2030, BYGGING-UDDEMANN WILL:

17.1 Strengthen domestic resource mobilization, including through international support to developing countries, to improve domestic capacity for tax and other revenue collection

ACTION PLAN

BYGGING-UDDEMANN WILL ACHIEVE THE GOAL BY:

- Support less developed countries to achieve sustainable and resilient infrastructure by utilizing local production facilities and high level of local content for workforce.
